

Revenue Share

Earn based on the monthly net revenue generated by your clients.

Net revenue	Commission
USD ≤ 20,000 per month	30%
USD > 20,000 per month	45%

Disclaimer:

- Affiliates residing in the EU can sign up for the Revenue Share plan but can only refer clients residing outside the EU.
- Clients who trade on both official Deriv platforms (Deriv Trader, SmartTrader, Deriv Bot, etc.) and third-party platforms via Deriv API will generate commissions for affiliates under this plan.
- All products are available to generate commission except for Multiplier Financials.

Example 1

If a client generates USD 10,000 in monthly net revenue, USD 3,000 will be paid out in commission.

Total commission earned

USD 10,000	×	30%	= USD 3,000
Monthly net revenue		Rate	Commission

Example 2

If a client generates USD 25,000 in monthly net revenue, USD 8,250 will be paid out in commission.

A: Commission for USD ≤ 20,000 per month

USD 20,000	×	30%	= USD 6,000
Up to USD 20,000		Rate	Commission

B: Commission for USD > 20,000 per month

USD 5,000	×	45%	= USD 2,250
Over USD 20,000		Rate	Commission

Total commission earned

USD 6,000	+	USD 2,250	= USD 8,250

Turnover

Commission table for Options

Type of Option	Commission
Multipliers	40% of client fee
Accumulator Options	40% of client fee
Turbo Options	40% of client fee
Vanilla Options	40% of client fee
Lookbacks (only on SmartTrader)	0.8% of the trade stake

Commission table for Digital Options

Based on each contract’s payout probability

Probability	Commission
0–19.999%	1.5%
20–39.999%	1%
40–59.999%	0.75%
60–79.999%	0.5%
80–94.999%	0.4%
95% and above	0%

Disclaimer:

- Affiliates residing in the EU can sign up for the Turnover plan but can only refer clients residing outside the EU.
- Example: Digital Options**

Client trades Digital Options with a stake of USD 10 and receives a payout of USD 15. The resulting commission is USD 0.05.

Payout probability

Payout	Convert to %	
(USD 10 ÷ USD 15)	×	100
Stake amount		Payout probability
		= 66.67%

Based on the chart, the probability of return falls under **0.5% commission**

Calculation is as follows

USD 10	×	0.5%	= USD 0.05
Stake amount		Turnover Commission	Total Commission

Example: Multipliers

Client trades multipliers with a stake of USD 137 with a multiplier of 100. The client is charged USD 5 for this trade (client fee). The resulting commission from the client’s trade is USD 2.

Total commission earned

USD 5	×	40%	= USD 2
Client fee		Rate	Commission

This formula is also applicable for Vanilla, Turbo, and Accumulator Options.

Example: Lookbacks

Client trades with a stake of USD 10. The resulting commission is USD 0.08.

Total commission earned

USD 10	×	0.8%	= USD 0.08
Stake amount		Rate	Commission
